AUTOBACS SEVEN Co., Ltd.

## Cancellation of ISO14001 Certification Registration

AUTOBACS SEVEN Co., Ltd. (Representative Director and CEO: Kiomi Kobayashi) obtained ISO14001 certification, the standard for environmental management, in February 2012, and has maintained it since then with a view to establishing and enhancing systems to preserve the environment and reduce the company's environmental footprint.

AUTOBACS SEVEN believes that it has achieved its initial objectives, successfully raising employees' awareness of its environmental management initiatives, and establishing concrete measures that led to a reduction in its environmental footprint through efforts made over the last five years. For these reasons, AUTOBACS SEVEN has decided to cancel its ISO14001 certification registration as of February 21, 2017.

Based on its environmental policies, AUTOBACS SEVEN is determined to continue to pursue initiatives that preserve the environment and reduce its environmental footprint as part of its CSR activities.
