

## 5W-30 SN/CF/GF-5

Clearing the stringent fuel economy standards of API, this oil is highly protective of your engine.

For gasoline and diesel engines in four-wheel vehicles

Oil type		Synthetic oil
Pour point (°C)		-35.0
Flash point (°C)		230
Viscosity index		163
Kinematic viscosity (mm <sup>2</sup> /s)	40°C	62.31
	100°C	10.71

## 5W-40 SN/CF

This oil creates a film to protect your engine and reduce oil deterioration during long drives at high revolutions and high load.

For gasoline and diesel engines in four-wheel vehicles

Oil type		Synthetic oil
Pour point (°C)		-35.0
Flash point (°C)		234
Viscosity index		170
Kinematic viscosity (mm <sup>2</sup> /s)	40°C	93.18
	100°C	15.05

## 0W-20 SN/GF-5

Clearing the stringent fuel economy standards of API, this oil is highly protective of your engine.

For gasoline engines in four-wheel vehicles (including eco-friendly vehicles like hybrid cars and cars with idling stop) from makers that recommend 0W-20 oil

Oil type		Synthetic oil
Pour point (°C)		-40.0
Flash point (°C)		226
Viscosity index		170
Kinematic viscosity (mm <sup>2</sup> /s)	40°C	45.27
	100°C	8.57

## 0W-30 SN/GF-5

Containing PAO (Group IV) for excellent cold-start performance, this oil also improves fuel economy.

For gasoline engines in four-wheel vehicles (including eco-friendly vehicles like hybrid cars and cars with idling stop) from makers that recommend 0W-20 oil

Oil type		Synthetic oil
Pour point (°C)		-45.0
Flash point (°C)		234
Viscosity index		177
Kinematic viscosity (mm <sup>2</sup> /s)	40°C	58.25
	100°C	10.69
