I. Includes total store saise of AUTOBACS /Ashing'a *Targiok Teochan ichiba* and AUTOBACS (with vehicle search PC terminals).

2. Includes total store sales of Super AUTOBACS, AUTOBACS, AUTO HELLOES, AUTOBACS Hashiriya Tengoku Secohan Ichiba, and AUTOBACS CARS (with vehicle search PC terminals).

March, 2006 COMMENTS	In March 2006, comparable and total store sales improved by 4.4% and 3.9%, respectively from the comparable prior-year period. Number of purchasing customers in comparable and total stores were up by 1.6% and 1.1%, respectively. Sales of Services soared by 13.8%, thanks to the TV ads that started in the end of February focusing statutory safety inspection services. Sales from statutory safety inspection services recorded 27.6% growth from the same month of last year. Sales of Car Electronics slightly rose by 2.3%. Car navigation systems sales, which retreated last December as many shoppers used their money to buy snow tires, were back in the strong range boosted by the end-of-term sales in March. The top-selling car navigation systems were embedded with ground digital broadcasting, tuner. On the other hand, sales of ETC terminal sales this month was also due to the robust sales seen in last March when last-minute purchasers rushed into stores to take advantage of the 5,000-yen cash back promotion. Also, many companys installed ETC terminals to their cars last March in order to get the 20% corporate discount before the discount will be limited to terminal-installed cars in April 2005.
STORE INFORMATION	For March 2006: New stores 1 ; Change in store format 3 ; Closed 6 Total number of stores at the end of March 2006: 532 (Super AUTOBACS 65, AUTOBACS 403, AUTO HELLOES 11, Hashiriya Tengoku Secohan Ichiba 28, EXPRESS 6, Overseas 19) Since April 1, 2005: New stores 21 ; Change in store format 4 ; Closed 18
February, 2006	
COMMENTS	In February 2006, comparable and total store sales declined by 3.0% and 3.1%, respectively from the comparable prior-year period. Number of purchasing customers in comparable and total stores also fell by 2.0% and 2.4%, respectively. Sales fell due to year-ago comparison when heavy snowfall boosted the demand of snow tires, tire chains, and batteries. The robust sales in last December that was brought by the record snowfall also had a negative impact on this month's sales results. By products, sales of tires dropped 10.7% according to the weak performance of snow tires. Sales of services only showed 0.7% increase reflecting the reduced demand for winter products. Although, sales from statutory inspection services remained strong and recorded 26.6% growth. Sales of car electronics dropped 0.7%. It was for the third time this term that its sales fell under the year-ago level. In this product category, car navigation systems and ETC terminals posted 3.6% and 3.5% increase, respectively. In contrast, sales of accessories rose 6.9% thanks to the 25.0% jump in radar detector systems sales and the 11.2% increase in aromatic products sales.
STORE INFORMATION	For February 2006: New stores 7(include 6 stores acquired from Eldorauto) ; Change in store format 0 ; Closed 0 Total number of stores at the end of February 2006: 537 (Super AUTOBACS 62, AUTOBACS 407, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 29, EXPRESS 5, Overseas 20) Since April 1, 2005: New stores 20 ; Change in store format 1 ; Closed 12
January, 2006	
COMMENTS	In January 2006, both comparable and total store sales declined by 11.5 % and 11.7% respectively from the prior-year period. Number of purchasing customers in comparable and total stores also declined by 7.5 % and 7.9 % respectively. The major reason for the negative growth is coming from two factors, We had an exceptional heavy snowfall in December, which strongly contributed to the great sales Looking at the combined results of the two months, it became almost same sales level compared to the last year. By product, servicing showed first negative growth this year because of the above-mentioned reason. Car inspection included in the department of servicing showed the improvement by 15.3% compared to the last year. Navigation system and ETC included in the department of car electronics also showed the improvement by 3.7% and 17.2% respectively.
STORE INFORMATION	For January 2006: New stores 0 ; Change in store format 0 ; Closed 1 Total number of stores at the end of January 2006: 530 (Super AUTOBACS 62, AUTOBACS 407, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 29, EXPRESS 5, Overseas 13) Since April 1, 2005: New stores 13 ; Change in store format 1 ; Closed 12
December, 2005 COMMENTS	In December 2005, both comparable and total store sales improved by 20.8% and 20.7% respectively from the prior-year period. Number of purchasing customers in comparable and total stores also increased by 8.2% and 8.0% respectively. Recorded heavy snowing and cold wave starting from mid of December contributed to the tremendous sales increase of snow tires, wheels and snow chains compared to the last year. Although mild winter was originally forecased, which hesitated customers to buy the snow tires, now strong demand is coming out because of the sudden snowing and cold wave. Sales varied by the area. The area where the most strong sales showed is Harima area(south of Hyogo Pref.), which is 52.0% increase. The strong sales is also seen in Chugoku area and Alchi area increased 50.4% and 43.0% respectively. These exceptional sales is altributed to the unexpected demand of snow tires in harea where normally snowfall is hardly expected. Whereas North Japan area where the demand of snow tires is already fulfilled showed the sales by 0.5% increase, which was perceived as the normal sales compared to the sales level for the last years.
STORE INFORMATION	For December 2005: New stores 2 ; Change in store format 0 ; Closed 1 Total number of stores at the end of December 2005: 531 (Super AUTOBACS 62, AUTOBACS 408, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 29, EXPRESS 5, Overseas 13) Since April 1, 2005: New stores 13 ; Change in store format 1 ; Closed 11
November, 2005 COMMENTS	In November 2005, both comparable and total store sales improved by 2.9% and 2.7%, respectively from year-ago levels. However, number of purchasing customers in both comparable and total stores fell by 7.6% and 8.0%, respectively, reflecting the strong figures in last November. Last year, customers rushed into stores to purchase the hands-free car kits for cellular phones in relation to the adoption of the Revised Traffic Regulation that was effective Nov. 1, 2004. By Products, Services remained strong with sales rising 8.5% led by the increasing demand of statutory safety inspection. Sales from statutory safety inspection recorded 14.7% growth from the same month of last year. Sales of Car Electronics ross 3.5% driven by the 64% hike in sales of ETC terminals. Three and the eles saw remarkable sales growths of 8.9% and 11.6%, respectively, as the arrival of cold weather helped to spur sales for snow tires and snow tires/wheels sets especially in the Northern Japan Area. Batteries also demonstrated strong sales growth due to the cold weather. Its sales have been disappointing during the summer months according to cooler temperatures.
STORE INFORMATION	For November 2005: New stores 4 ; Change in store format 0; Closed 0 Total number of stores at the end of November 2005: 530 (Super AUTOBACS 62, AUTOBACS 408, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 28, EXPRESS 5, Overseas 13) Since April 1, 2005: New stores 11; Change in store format 1; Closed 10
October, 2005	
COMMENTS	In October 2005, both comparable and total store sales improved by 2.7% and 2.3%, respectively from year-ago levels. Number of purchasing customers in both comparable and total stores decreased by 1.7% and 2.3%, respectively. By Products, Services performed best, with sales rising 12.5%, led by the increasing demand of statutory safety inspection and the solid sales of Car Electronics. Sales of Car Electronics rose 9.1% driven by the remarkable sales growth of ETC terminals. However, car navigation system sales remained in the low single-digit growth range, as customers tend to postpone its purchase until the debut of the new navigation model mostly scheduled in November. Sales of Olis enjoyed a 2.1% rise, a year-on-year increase for a second month in a row, reflecting the marketing and merchandising efforts at the store level. On the other hand, sales of Tires were 1.2% below last October primarily due to the warmer weather compared to last year, which decreased the demand of snow tires. *Total Store Sales and Total Number of Purchasing Customers are updated due to the revision of the data of AUTOBACS Hashiriya Tengoku Secohan Ichiba and AUTOBACS CARS (with vehicle search terminals).
STORE INFORMATION	For October 2005: New stores 1; Change in store format 0; Closed 1 Total number of stores at the end of October 2005: 526 (Super AUTOBACS 62, AUTOBACS 404, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 28, EXPRESS 5, Overseas 13) Since April 1, 2005: New stores 7; Change in store format 1; Closed 10

September, 2005	
	In September 2005, comparable and total store sales both improved by 2.8% from year-ago levels. Number of purchasing customers were flat on a comparable store basis, and decreased by 0.3% on a total store basis, both compared to last September. By products, Sales of Car Electronics maintained growth mainly due to the strong sales momentum of ETC terminals, while sales of car navigation systems remained in the range of low single-digit growth. The demand for ETC terminals is on an upswing, as more drivers are getting aware of the several discount programs conducted by the government-backed Japan Highway Public Corporation.
	Sales of Accessories maintained its upward trend due to the on-going high demand of radar speed detection system. Sales of Services continued to show sharp year-over-year growth reflecting the double-digit sales growth for statutory safety inspection and the solid performances of the car navigation systems and ETC terminals. However, sales of Tires fell below the level of last year for two consecutive months. Especially, its sales sank in the Kyushu and Shikoku region, where many stores were forced to shut down during the powerful typhoon.
	For September 2005: New stores 3; Change in store format 0; Closed 0 Total number of stores at the end of September 2005: 526 (Super AUTOBACS 62, AUTOBACS 405, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 28, EXPRESS 5, Overseas 12) Since April 1, 2005: New stores 6; Change in store format 1; Closed 9
August, 2005	
	In August 2005, both comparable and total store sales improved by 1.1% and 0.4%, respectively from year-ago levels. Number of purchasing customers in both comparable and total stores decreased by 0.5% and 1.4%, respectively. Sales of Tires and Wheels decreased from the year-earlier levels for the first time in this fiscal year. The slowdown in tire sales was mainly due to the strong figure of last August when sales were encouraged by the nationwide tire campain. Sales of Batteries also dropped in contrast to last year when sales sured according to the extraordinary hot summer.
	Sales of Car Electronics exceeded the previous year level for four consecutive months. Although we saw softer sales growth in car navigation systems with regard to lessened demand for new models, the remarkable sales of ETC terminals pushed up the overall sales of Car Electronics. Sales of Services maintained its high level of growth thanks to the solid installation demand and the two-digit sales increase for statutory safety inspection service. The number of Sundays were one less than last August.
	For August 2005: New stores 0; Change in store format 0; Closed 2 Total number of stores at the end of August 2005: 523 (Super AUTOBACS 61, AUTOBACS 405, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 26, EXPRESS 5, Overseas 12) Since April 1, 2005: New stores 3; Change in store format 1; Closed 9
July, 2005	
	In July 2005, both comparable and total store sales improved by 6.9% and 6.4%, respectively from year-ago levels. Number of purchasing customers in comparable and total stores also increased by 4.8% and 4.0%, respectively. Summer sales were held at most part of the nation and we saw robust year-on-year growth in sales and the number of purchasing customers this month. Sales of Tires and Wheels showed strong sales growth, driven by the tire-focused television commercial and newspaper ad inserts. Car navigation systems recorded another two-digit sales increase and lifed the overall sales of Car Electronics. Especially, sales of the portable navigation systems and the newly released HDD navigation systems soared during the summer sales event. Reflecting those solid performances in products that require pit installation and the continuing high demand for statutory safety inspection service, sales of Services maintained its strong growth momentum. Additionally, sales of Accessories marked a fourth consecutive month of rise, primarily due to the high-volume sales of the new radar specified to service.
	For July 2005: New stores 1; Change in store format 0; Closed 1 Total number of stores at the end of July 2005: 525 (Super AUTOBACS 61, AUTOBACS 406, AUTO HELLOES 14, Hashiriya Tengoku Secohan Ichiba 27, EXPRESS 5, Overseas 12) Since April 1, 2005: New stores 3; Change in store format 1; Closed 7
June, 2005	
	In June 2005, both comparable and total store sales improved by 4.9% and 4.7%, respectively from year-ago levels. Number of purchasing customers increased by 0.5% at comparable stores
	and were flat at total stores, compared with the same period of last year. Strong sales in Services, Tires, Car Electronics, and Accessories led the overall outperforming result for this month.
	Sales of Services continued to the behavior of the service of the
	Newly released HDD navigation systems and on-going promotions to attract new ETC users drove the significant increase in Sales of Car Electronics.
	For sales of Accessories, new radar speed detection system assisted the consistent sales growth besides the hands-free related items for cellular phone.
